MBSS_InitCondFromTrajectory.pl

Aim

Transform a line from a probtraj file (generated by a MaBoSS run) into an initial condition for MaBoSS.

How to run the script

The script can be run using the following command line:

`MBSS_InitCondFromTrajectory.pl <file.bnd> <filetraj.csv> <linenumber>`

NB: the probtraj file should have been produced by a MaBoSS run without internal node.

Outputs

The result is directly available in the standard output.
