

# **MBSS\_InitCondFromTraj.pl**

## **Aim**

Transform a line from a probtraj file (generated by a MaBoSS run) into an initial condition for MaBoSS.

## **How to run the script**

The script can be run using the following command line:

```
MBSS_InitCondFromTraj.pl <file.bnd> <filetraj.csv> <linenumber>
```

NB: the probtraj file should have been produced by a MaBoSS run without internal node.

## **Outputs**

The result is directly available in the standard output.
